☆ Success Story ☆

I had lost a tooth from the front of my lower jaw and my regular dentist had made me a "flipper" to take its place - a most uncomfortable gadget I couldn't wear when I ate. I saw Dr. Lee Sheldon's advertisement in "Florida Today", so I went to his office to find out about having an implant. Result: He installed the post, my own dentist made and put in place a temporary crown which worked well all summer while I vacationed in Michigan. In November my dentist installed the permanent crown, which Dr. Sheldon inspected and approved. It feels so good to have a tooth that feels and looks like mine!
