

Dear Doctor Sheldon

Twenty five years ago you did an implant for my mother in law. She drove herself one hour each way. She still had her implants When she passed away That is why I came to you. My wife and I Had two implants in 2009.

Dr Sheldon you and your Professional staff are such Wonderful caring people. We are able to eat the food that we like and our new smile has brightened the world for us. Now that my wife can chew her food again I am obligated to Take her out for a steak dinner more often .My answer to that is this:

If what you pay for is good you forget the price.
But if it is bad you will never forget it.

Dr. Sheldon you have our sincere thanks

Sam & Michelle Oliveto
