★ Success Story ★
★ ★

About two years ago while on vacation I had a tooth to break and went to an out of town dentist rather than canceling my vacation and coming back to Florida. Less than a year later the crown that was put in at that time broke out and of course I called Doctor Sheldon as I had been seeing him for well over twenty years. His suggestion was to go with an implant, which I choose to do as I have full trust in what Doctor Sheldon recommends. As the procedure was done it was determined that my bones were not adhering to the implant as they should have been, so with Doctor Sheldon's vast knowledge of nutrition he recommended a regiment of vitamins and food supplements. In a very short time the problem was solved. I just recently had my tooth put in and I am very pleased with it and with the work of Doctor Sheldon's and all those involved. Doctor Sheldon and his whole staff have always been very friendly while maintaining a professional atmosphere in the office. If one could say that they look forward to a visit with a dentist it would have to be in Doctor Sheldon's office.
