### ☆ Success Story ☆

My dentist referred me to Dr. Sheldon to have a soft-tissue graft. Upon consultation, Dr. Sheldon advised that my teeth were too short and by having crown lengthening of my upper teeth, I would have a much better smile.

After I agreed to proceed with all of the above (in one sitting!!), I had a great deal of apprehension, and decided I had lost whatever common sense I might have possessed. The staff at Dr. Sheldon's office was helpful and caring and made me feel at ease.

The pre-op instructions were clear and easy to follow. The surgery went amazingly well and I had no problems whatsoever. The healing process was faster than I imagined and in no time at all, I had the promised smile. There was no part of the procedure or healing that was anywhere near as bad as I expected.

Imagine how pleased I am after 50-something years of having short teeth, I am now not only "long in the tooth," but am told I have a wonderful smile! Thanks to Dr. Sheldon and his great staff!
